

NF-538V

Sleeve Placket & Pocket Tape Fusing Machine

- Pneumatic operated for sleeve placket & pocket tape fusing.
- Programmable fusing time and electric heating plate.
- Designed with micro temperature controller to control the temperature of the heating plate.
- Low air consumption that saves electricity, built-in powerful vacuum to keep garment in position while pressing.
- To apply even pressure for quality fusing, the heating plate is pressed down after the lower mould is transferred horizontally.
- Designed with the fusing platform away from the operator, therefore less fatigue for operator as not affected by heat generated.
- Safety features incorporated to protect the operator.

Total Consumption	Voltage	Air Consumption	Air Pressure	Machine Dimensions	Weight
4Kw	400V/3PH/50-60Hz	98 L/min	6.5 Bar	900x1120x1620 mm	420 Kg
